## VERSE 1

It's Christmas  
and all of the trees are naked  
without any leaves and I'm watching  
the city become a dream

The sidewalks are covered in snow  
And festivities beam from all the windows  
even the mannequins have someone to hold

It gets harder, because this time of year  
commercial and holiday cheer are rarely  
telling the stories of the ones who are spending it lonely

## PRE-CHORUS

**F**                      **G**      **C**  
Turn it all around I got message for you  
**F**    **G**      **C**  
there's beauty in the quiet of the long walk home, girl  
**F**    **G**      **C**      **G**  
it's better to be all alone than buying presents for a fool

## CHORUS

**F**      **G**                      **C**  
Merry Christmas, Single Women!  
**F**      **G**    **C**  
Merry Christmas all you, single women  
**F**      **G**    **C**  
Winter's cold, but I am right there with ya  
**F**    **G**  
It's hard out there, but Merry Christmas to you  
**F G C X2**

## VERSE 2

My anger is rooted in fear  
and my therapist says there's work to be done there  
I'm working on changing my negative thought patterns to good ones

I'll let the panic, wrap itself round the Christmas tree  
let the sparkle of my insecurities  
dangle like fire on the branches  
and burn that thing down

### PRE-CHORUS

**F**                    **G**        **C**  
Turn it all around I got message for you  
**F**    **G**        **C**  
there's beauty in the quiet of the long walk home, girl  
**F**    **G**        **C**        **G**  
it's better to be all alone than buying presents for a fool

### CHORUS

**F**        **G**                    **C**  
Merry Christmas, Single Women!  
**F**        **G**    **C**  
Merry Christmas all you, single women  
**F**        **G**    **C**  
Winter's cold, but I am right there with ya  
**F**    **G**  
It's hard out there, but Merry Christmas to you  
**F G C X2**
